FOREIGN BROADCAST INFORMATION SERVICE
OKINAWA BUREAU
APO SAN FRANCISCO 96239

MOK-5015
6 June 1985

MEMORANDUM FOR: Director, Foreign Broadcast Information Service

THROUGH: Chief, Operations Group, FBIS

FROM:
Acting Chief, FBIS Okinawa Bureau

SUBJECT: Monthly Report - Okinawa Bureau - May 1985

I. GENERAL

The bureau's eight-year, \$4.9 million housing recapitalization program was launched one year early with Headquarters' approval of authority for \$320,000.00 in FY-1985 architectural and engineering studies that had been unfunded. The U.S. Army Corps of Engineers has been notified of the approval so it may commit funds and resources to the project. The plan calls for demolition and reconstruction of the 16 oldest GWSK houses, major refurbishing of 23 other houses, and remodeling of the newer senior staff houses.

Five bureau U.S. staffers played roles, along with more than 400 U.S. Marines and millions of dollars worth of helicopters, in simulated emergency evacuation exercises from a U.S. Embassy in "Napaj," a mock country suffering mock civil unrest and anti-U.S. demonstrations, on 30-31 May. FBIS employees were asked to play roles when the U.S. Consulate General at Naha could not spare personnel and suggested FBIS to the Second Marine Battalion, located at Camp Schwab. FBIS personnel acted as ambassador, deputy chief of mission, CIA station chief, regional security officer, and administrative counselor, giving orders, processing evacuation documents, managing security, and making requests for evacuation by a scenario devised by Marine Major Robert Heinz. The FBIS "Embassy" staffers were evacuated by large Boeing CH46E "Sea Knight" helicopters as well as a special ride for the "ambassador" in a Bell Iroquois command and control 'copter carrying 2d Marines commander Lt. Col. R.L. Jaehne, with huge Sikorsky CH53E "Super Stallion" 'copters carrying Marines and Bell "SeaCobra" gunships hovering over the Marine training area to discourage large numbers of players acting as anti-U.S. rioters and snipers. Cruiser "suffered" a mock chest wound and was evacuated by stretcher, his stretcher bearers also being mock-killed in mid-escape. FBIS has been promised a look at a video training tape taken of the whole exercise. There was no outside publicity.

Efforts to improve FBIS monitoring of the Philippines' low powered, medium-wave radios believed to be carrying anti-Marcos material made headway in May. A

TDY trip to the U.S. Embassy in Tokyo produced a decision by DCM William Clark to "tell" the Japanese that FBIS planned to survey Philippines reception from Ishigaki Island late this fall, and might use Ishigaki as a short-term crisis monitoring site. C/Hong Kong Bureau's report on high costs (ca \$91,000.00 yearly) for a 24-hour commercial phone line for a remote from Clark AFB to Hong Kong evoked a MOD decision to seek a Clark AFB-Okinawa autovon line for remoting from Okinawa Bureau, avoiding the Hong Kong line problems and costs. Bureau engineers are rechecking the bureau's single remote control unit and receiver to prepare for a future remote operation.

II. OPERATIONS

A. Editorial/Monitorial

1. Recent, rapid and large increases in Okinawa's television product became clear in figures for May and April. The bureau sent out 92 tapes--a record--in May, including 37 tapes requested in 24 MOD queries that included "automatic sends" such as "I Serve the Soviet Union" and "Studio 9" as well as consolidated leadership appearance tapes for AG, 32 tapes from Japan's NHK and others under the new "cities" project, as well as nine Soviet movie training tapes for Prod Group, 13 to Okinawa's 6990th USAF Electronic Security Group, and one to the 500th MI Group, Camp Zama. In April, the first full month of the "cities" project, a total of 58 videocassettes were sent out. DHL courier costs for "cities" appear to run about \$650-700 monthly.

2. All annual performance appraisals on monitors were completed during May, about half being forwarded by the 31 May Headquarters deadline and the rest, mostly awaiting signatures by monitors on leave, were to go in early June, at the same time as the bureau promotion and PSI panel was to meet.

3. Action was taken at the end of May to begin EOD processing for the last two Chinese monitor applicants on the bureau's short list, following notice from trainee [redacted] that she planned to resign in August to attend journalism graduate school at the University of Missouri. The bureau also will lose veteran monitor [redacted] in August, when he resigns/retires to immigrate to the U.S. Another Chinese recruiting trip is planned this fall to build a new list.

4. Production remained at a high level of 1,302,310 publishable words in May, about 55,000 short of the April all-time record.

5. Okinawa's eight-hour time advantage over London/BBC for scheduled Moscow TV coverage paid off again on 3 May, when the bureau texted a 20-minute recorded interview with visiting Indian Prime Minister Rajiv Gandhi.

6. Several developments in Chinese satellite TV and possible facsimile transmissions aroused interest at month-end: An HK-monitored item indicated Beijing would soon use an Indian Ocean INTELSAT satellite to transmit PRC telecasts "as an emergency measure" to expand TV coverage beyond that offered by the PRC's experimental 125E bird launched 8 April 1984. Other reports indicate an overseas edition of RENMIN RIBAO, to be published from 1 July in Hong Kong and foreign cities including New York and San Francisco, will be transmitted by satellite facsimile. Okinawa will check INTELSAT TV transmissions when they

begin, but must await delivery of "adaptable fax" gear this September-October to check the newspaper. The PRC 125E satellite may be losing power, according to very tentative and inconclusive observations at the end of May. Further checks are being made.

7. Reduced Vietnamese staffing this summer during redocumentation travel of both monitors was notified to concerned bureaus and Headquarters components. The single monitor on duty will work six evenings weekly, with some delayed processing from Sunday coverage on Mondays.

B. Cruising

1. Lengthy change observations on seasonal frequency shifts by Moscow, Beijing, and other bureau target transmissions were reported during May, making heavy use of the cruising unit's IBM PC database.

STAT 2. MOD cruiser trainee [] departed 13 May at the end of
STAT his TDY, after compiling a detailed report on all "pass-feed" satellite trans-
missions available in Okinawa's look angle for potential crisis and backup cover-
age, again using the IBM PC database files on which [] had trained.

3. The bureau pouched to MOD numerous recordings on annotated cassettes of all kinds of signals encountered in normal cruising work, to support MOD's training program, as well as Soviet TV colorbars videotaped from the 140E satellite, also for MOD use.

4. Bureau proposals for summer and fall cruiser TDY and training programs involving a July Seoul training TDY, a Phuket August survey of South Asian reception with BK's local cruiser Suwat taking part, and fall MOD staff cruiser TDY training were agreed to by interested parties.

C. Communications

OW's Mode V backup communications circuit B-252 was rehomed from Drake ASC to Yokota ASC on 23 May without incident. Two service circuits supplying KYODO press agency incoming to OW, and KCNA outgoing for Seoul Bureau, will be rehomed to Yokota on 30 June. The rehomings were unrelated to lengthy delays experienced in early May, when an unreported scheduled downtime at Hawaii--carrying the Guam ASC's traffic--caused bureau traffic to be delayed several hours.

D. Lateral Services

1. Okinawa provided ad hoc special service to a U.S. Navy unit visiting Okinawa on 26 May. The Japanese team translated a newspaper item reporting a re-fueling stop at Miyako Shima, some 150 miles south of Okinawa, by two U.S. helicopters en route from Cubi Base, Philippines, to Kadena. The request from the commander of VC-5 was met overnight, with delivery and pickup of raw materials and the translation at the FBIS motor pool by Navy Lt. Raymond L. Cravaack.

2. BBC expressed appreciation for "swift filing" on 23 May of a XINHUA English report on a PRC-Portugal agreement to begin talks in the near future on the Macao question, arising from Portuguese President Eanes' visit to the PRC.

III. ADMINISTRATION/LOGISTICS

A. Personnel

1. Parental anxiety over DODDS schooling for FBIS children next year was greatly reduced at mid-month by a letter from Okinawa DODDS Administrator Dr. Ann Bamberger assuring that all presently enrolled "space available" pupils would again be admitted in 1985-86, and that new students in the same category would be admitted on a school-by-school and class-by-class basis in "limited" spaces. Headquarters and bureaus sending PCS personnel to Okinawa this summer were advised.

STAT 2. Senior Editor [] returned to Okinawa 10 May after an
STAT additional week's TDY for emergency travel staffing at Hong Kong made necessary by lack of airline return seat space on this busy route. [] survived the "hardships" of Hong Kong's attractive shopping lures in good spirits, if a bit poorer in pocketbook.

STAT 3. Tests were successfully conducted at Headquarters B&F request to determine whether the bureau's IBM PC computer payrolling program could handle Contract Health Insurance deductions for TCN employees. An August start date was proposed. Some program changes in the bureau FSR/spreadsheet program were made by [] and forwarded to SDS on diskette. ✓

B. Logistics

STAT 1. Housing renovations and refurbishings for summer PCS changes are
STAT on schedule, with work 90 percent complete at the bureau chief's house. Kitchen enlargements will be done at the chief editor's and admin officer's houses at overlap time, with walls dividing kitchen and laundry removed, permitting a larger kitchen with breakfast nook and enclosed washer/dryer cabinets as well as dishwasher installations.

STAT 2. Packouts for PCSers [] began the
STAT summer travel season on 28-31 May, with the [] family packing out on 3-4 June.

IV. ENGINEERING

1. The eight new rhombic antenna poles covering the two rhombics scheduled for complete replacement this year were installed by the contractor in May, and Air Force personnel began installing the rhombic antenna curtains.

2. The first unofficial indication that the new digitized microwave upgrade may not start until 1989 was received during a brief visit that otherwise was devoted to locating boundary markers across the road from the Bolo Point Operations building, where the microwave site will be located. The bureau still awaits further word from Fort Huachuca, AZ, on this project.

3. The two incompatible SONY BVU-820S videocassette recorders have been returned to OWAX, and the bureau awaits a credit refund notice before initiating substitute procurement of standard SONY 5630 VCRs in their stead, as agreed by C/MOD and C/FEB. The bureau logs officer also completed the first direct procurement from SONY's Koza office of a budgeted 5630 VCR and RM-580 remote control

unit. Direct procurement saves the 22.5% overhead charge usually levied by OWAX when it acts as middleman.

V. VISITORS

To the bureau:

USMC Maj. Robert Heinz and Cpl. MacDonald, 16 and 28 May, to discuss FBIS staff participation in a Marine embassy emergency evacuation exercise.

MSgt. Gilbert J. Stadley, Jr., Ops Sgt. of U.S. Army Asian Studies Det, 500th MI Group, Camp Zama, on 23 May for orientation and briefing.

An officer of the Manila Area Telecommunications Office, 29-30 May, to audit the bureau classified communications facility.

From the bureau:

Acting bureau chief to Consulate General, Naha, on 7 May and to the USFJ Okinawa Area Coordinator Secretary, Camp Butler, and Okinawa Army Information Systems Command Battalion, both on 9 May, for consultations on possible bureau emergency monitoring of the Philippines.

Administrative Officer to U.S. Embassy Tokyo, 12-15 May, for consultation.

Acting bureau chief to U.S. Embassy Tokyo, 23-25 May, for consultation on Philippines emergency coverage planning.

STAT Acting chief, regional engineer, administrative officer, cruising officer, and editor [] to the USMC Gimbaru, Camp Hansen, and Camp Schwab Marine bases and training areas on 30-31 May for part-day participation in simulated embassy evacuation exercises.

(Delayed) Regional engineer to Seoul Bureau, 5-8 April, for routine consultation.

VI. COMMUNITY ACTIVITIES

The new FBIS "Bolo Point Garden" was dedicated on 3 May with ribbon cutting, speeches, sashimi, steak, and beer, many staff and non-staff employees taking part. Photos attached in lieu of 1,000 words. *in Lew!*

STAT Bureau employees including staff Cruiser [] and cruiser-trainee [] as well as MLC cruiser [] competed in the Naha spring tennis tournament 11-12 May. [] won the seniors (over 45) division and [] took second after being defeated by [] In senior doubles, the [] duo lost in the first round. Photo attached.

STAT An FBIS "yard sale" was held on Memorial Day, 27 May, with ten families clearing closets and filling pockets. Success led to plans for another in July, organized by []

Daughters of

danced on stage at the 4-5 May Key-
stone Theater "Carnival of Dance 85" show put on by Su-Chien Hong's International
Dance Academy, the last such show, since is leaving Okinawa this summer.

Engineering Monthly Report

Photos

Ribbon-cutting ceremonies for the new "Bolo Point Garden" picnic and lunch area at the front of the Bolo Operations Building grounds, held on 3 May 1985. Acting Bureau Chief [redacted] and Logistics Officer [redacted] (shown), along with Admin Officer [redacted], cut the ribbon to launch an afternoon picnic. On right are Bolo foreman [redacted] "creative idea man" on the project, and MLC Administrative Assistant [redacted]. In the background between [redacted] and [redacted] stands Bolo technician [redacted]. Sashimi, steaks and varied beverages were served.

"Grand opening" banners decorate the new "Bolo Point Garden" prior to the ribbon cutting. In the far right background is the new FBIS shelter tent used for outdoor work in hot or inclement weather and for Bolo social and community events.

MOD TDY cruiser trainee [redacted] [redacted] who won second prize trophy in the Naha 1985 Spring Tennis Tournament on 12 May, the day before leaving Okinawa, receives his certificate in the "Men's Senior" (Over 45) class competition from tournament officials. MLC cruiser [redacted] [redacted] won first prize and cup in the same Senior class, defeating [redacted] in straight sets. Staff cruiser [redacted] [redacted] eliminated in his first singles match, said "Wait until next year."
